  - **Congestion and emergency access impediment** as remaining space insufficient for safe vehicle circulation.
  - **Heightened reversing vehicle risks** in severely restricted manoeuvring areas.
  - **Vehicle-vehicle collision potential** due to inadequate space for safe passing and turning.

- **Risk Assessment Conclusion:**
  - **Risk level deemed UNACCEPTABLY HIGH** for continued vehicle access following modular building installation.
  - **Space limitations make adequate safety controls impossible** to implement within available area and budget.
  - **Young student population (ages 5-12) particularly vulnerable** in confined vehicle-pedestrian environment.

## 74. Wellbeing – Staff and Stress

### What is Work-related Stress?

Stress can be broadly defined as the negative reactions people have to aspects of their environment. Work-related stress simply refers to those reactions due to pressure within the working environment.

“Stress occurs when an individual perceives an imbalance between the demands placed on them on the one hand, and their ability to cope on the other” (Professor Tom Cox, Institute of Work, Health and Organisation).

Each individual member of staff brings into the school their own particular personality, medical history, psychological make-up and coping skills. As a result, what may be stressful for one staff member may not be for another. However, some workplace factors inevitably lead to stress, such as poor communications, role ambiguity, career stagnation, low participation in decision-making, conflict, etc.

### Effects of Stress

The effects of stress differ from individual to individual. The experience of stress can change the way a person feels, thinks and behaves and can also produce physical changes. A person will often experience stress in a number of ways. When you are stressed, you are less likely to eat well, get adequate sleep, take exercise and relax. You can also experience irritability, reduced attention span and memory impairment. Irritability due to stress can create secondary problems such as the loss of social support. Being stressed over a prolonged period of time has been associated with increased blood pressure and cardiovascular problems.

### Aims

Our policy aims to:

- encourage staff well-being within Gaelscoil Dhroichead na Banndan and discourage the stigma attached to stress.
- raise awareness of ill health associated with stress, its causes and associated factors.

To this end dangerous, threatening, aggressive or violent behaviour (hereafter called violent behaviour), whether verbal or physical, is not permitted in the school or among the school community. A separate Code of Behaviour Policy deals with students.

During the course of their work school staff may be at risk in the form of verbal abuse, threats, assaults or other forms of intimidation. This behaviour may come from pupils, parents, guardians, other staff members or visitors. Violent behaviour is categorised as acts against people or property.

The Board of Management of Gaelscoil Dhroichead na Banndan recognises its duties to:

- Provide a safe environment for staff and other persons present in the school.
- Minimise the risk of assaults on teachers / Principal or other staff employed in the school.
- Support staff that have been assaulted or threatened with assault. And ensuring that appropriate action is taken to safeguard against a recurrence.

### Preventative Measures

- Policies on violence go hand in hand with policies in relation to bullying, harassment, behaviour etc. These policies need to be reviewed frequently to identify and resolve weaknesses to lessen the threat of violence.
- Communication between home and school should be frequent, open and positive. In this context policies and procedures in relation to visits to the school, meeting with teachers, school discipline, complaint procedures etc. should be in place and parents/ guardians encouraged to communicate with the school as appropriate.
- Parents /visitors who wish to have a consultation with a class teacher should make a prior appointment with the relevant teacher. In urgent cases where a prearranged appointment is not appropriate, parents should, in the first instance, report to the school secretary.
- All visitors are required to report to the school secretary's office. Signs displayed within the school grounds and premises outline this.
- Video surveillance equipment has been installed to help deter violent acts.

### Steps to be followed in the Event of an Assault

- In the event of an assault, a staff member should not try to resist if cash or goods are the obvious motive for the attack. Depending on the circumstances and the level of training, the member should endeavour to calm down the assailant and seek assistance as quickly as possible.
- The incident should be immediately reported to the Principal.
- Where necessary, immediate medical assistance should be sought. Debriefing is essential as soon as possible after the event. Staff are entitled to time off work and counselling if needed.
- The matter should be reported to the Gardaí, where appropriate. The staff member who was assaulted would normally make this report.
- The details of the incident should be recorded. The information recorded should include personal details (name, age, occupation) of the victim and assailant where available, description of what happened, why did it happen, when and where it happened, description of any injuries sustained and weapons used, what procedure failed. Situations in which staff members have been intimidated or threatened with physical violence should also be recorded. Reports should be made to the Health and Safety Authority and the States Claims Agency as required.
- The Board of Management should be notified of the incident and where necessary an emergency meeting of the Board of Management should take place. The Board should consider notifying its legal advisors and insurance company of the incident as appropriate.
- Where an assault is by a pupil the matter should be dealt with in accordance with the school's Code of Behaviour.
- Repeatedly aggressive pupils should be referred, with the consent of parents/guardians, for psychological assessment in order to assess the pupils' social and emotional needs and to determine how these can be best met.
- Where a parent/guardian or visitor commits the assault, the Board of Management should immediately instruct the person in writing not to make direct contact with the staff member/school pending full consideration of the matter. Subsequently the Board of Management should correspond with the parent/guardian or visitor stating:
  - that it considers the assault unacceptable and what action the Board of Management intends to take.
  - outlining what pre-conditions should be met before access to the school is restored.
- Where a staff member commits the alleged assault, the Board of Management should immediately instruct the member in writing not to make direct contact with the victim pending full consideration and investigation of the matter. The question of suspension may also need to be considered prior to further action/disciplinary measures being taken.
